

Epilepsy Foundation of Florida

United Way Funded Program:
Epilepsy Resource Center

Funding Amount: \$5,000
1-year grant

Description of Program Services: The program provides neurological, comprehensive case management services, educational resources, and life support skills to Escambia residents, regardless of socioeconomic status.

Impact Area: Health

Significant Statistics: The Epilepsy Foundation of Florida currently provides medical and case management services to 160+ Escambia County residents. 83% of these people live below the federal poverty level. The Epilepsy Services and Resource Center is designed to assist low-income families by helping individuals effectively and comprehensively manage their epilepsy, thereby improving school/work attendance necessary to maximize the intellectual potential needed in order to achieve full quality of life.
